

WETLAND AND WATERCOURSE MONITORING TRAINING

LINE 3 INDIGENOUS ADVISORY AND MONITORING COMMITTEE (IAMC)

This educational program focuses on monitoring the health of wetlands and waterways traditionally used by Red River Métis Citizens and First Nations Peoples along the Enbridge Line 3 Corridor in Manitoba, Saskatchewan and Alberta.

March 7, 2022: Module 1 — Introduction to Wetlands and Monitoring. 6:30 p.m. to 9:30 p.m. CT

Learn about wetlands and wetland monitoring. Explore the plants and animals found in Class I and Class II wetlands. Learn how to select sites for monitoring, and how to complete a Wetland Health Visual Survey.

March 14, 2022: Module 2 — Wading into Seasonal and Semi-Permanent Wetlands. 6:30 p.m. to 9:30 p.m. CT

Learn how to recognize the plants and animals typical of Class III and Class IV wetlands. Learn how to complete an amphibian survey.

March 21, 2022: Module 3 — Deep Dive into Permanent Wetlands. 6:30 p.m. to 9:30 p.m. CT

Gain an understanding of the plants and animals typical of Class V wetlands. Learn how to complete a wetland bird survey.

March 28, 2022: Module 4 — Watercourses and Emergency Response Planning. 6:30 p.m. to 9:30 p.m. CT

This session will focus on watercourse monitoring and emergency response. Learn how to perform a benthic invertebrate survey, monitor water quality, and spot wetland contaminants.
